EMPLOYMENT *Teaching Professor, 2020-present*

Department of Physics, University of California Merced, Merced, CA

Chief Reader Designate/Associate and Development Committee, 2017-present

Reader, Table Leader, Question Leader, Exam Leader 2009-2017

Currently serving on AP Physics exam development committee and will serve as Chief Reader 2021-5, responsible for management and implementation of 400 teachers grading 200,000 AP Physics exams

AP Physics, Educational Testing Service, Ewing, NJ

Professor, 2018-2020

Associate Professor 2015-2018

Department of Physics & Astronomy, Bucknell University, Lewisburg, PA

Visiting Scholar 2018-2019

Department of Physics & Astronomy, University of Pennsylvania, Philadelphia, PA

Host: Doug Durian

Associate Professor 2010-2015

Assistant Professor 2004-2010

Department of Physics & Astronomy, James Madison University, Harrisonburg, VA

Visiting Scientist, 2012-13

Max Planck Institute for Dynamics and Self-Organization, Göttingen, Germany

Postdoctoral Research Associate 2001 - 2004

Department of Physics and Center for Nonlinear and Complex Systems,

Duke University, Durham, NC

In collaboration with Robert P. Behringer

EDUCATION *Ph.D., Physics (2001)*

Cornell University, Ithaca, NY

Minor: Materials Science and Engineering

Dissertation: Low Anisotropy Growth in Directional Solidification

Advisor: Eberhard Bodenschatz

M.S., Physics (1998)

Cornell University, Ithaca, NY

B.S., Physics (1995)

Rutgers College, Rutgers University, New Brunswick, NJ

Minor: Philosophy, summa cum laude

COURSES PHYS 140: *Physics for Future Leaders*, S16, S17, S18, S20

- TAUGHT** PHYS 212: *Classical and Modern Physics I (lab instructor)*, S20
 FOUN 098: *Science and the News*, F19
 PHYS 211: *Classical and Modern Physics I (problem session instructor)*, F15, F19
 PHYS 221: *Classical Mechanics*, F15, F16, F17
 PHYS 246: *Data Acquisition & Analytical Tech. in Physics*, S14, S15
 GSCI 104: *Science Outreach in Schools*, S15
 PHYS 340: *Mechanics*, F13, F14
 PHYS 240: *University Physics I*, F13, F14
 MATH/PHYS 341: *Nonlinear Dynamics and Chaos*, F02, S08, S12, S14
 GSCI 101: *Physics, Chemistry, and the Human Experience*, F04, F05, F06, F07, F09, F10, S12
 PHYS 260: *University Physics III*, F11
 PHYS 380: *Thermodynamics and Statistical Mechanics*, F10, F11
 GSCI 121: *Physical Nature of Light and Sound*, S11
 PHYS 337: *Solid State Physics*, S05, S07, S09, S11
 PHYS 250: *University Physics 2*, S06, S07, S08, S09, S10
 PHYS 247: *Data Acquisition & Analytical Tech. in Physics*, S10
 PHYS 347: *Advanced Physics Lab*, F08
 PHYS 390: *Computer Applications in Physics*, F07
 PHYS 140L-150L: *Introductory Physics Lab*, F04, S05, F05, S06, F07
- RESEARCH** My research interests are in the fields of experimental complex systems, nonlinear dynamics, and materials science, specifically in granular and multiphase flows, as well as recent work on physics education. In particular, we study shearing and jamming in granular materials and granular-fluid systems with the ultimate goal of developing a statistical/thermodynamic description of dense granular flows. Specific studies focus on the jamming/clogging transition, effect of external vibrations, stability, emergent behavior in particle dynamics, and force transmission via photoelastic (stress-induced birefringent) grains in dense granular and multiphase particle-fluid flows. Educational research includes work on physics teacher education and critical thinking in introductory non-majors courses.
- GRANTS AND FUNDING** PI, NSF DMR CMP (co-PI: Katharina Vollmayr-Lee) *Collaborative Research: RUI: Jammed granular matter within networks of pins: Structure, elasticity, plasticity and rheology under shear* (\$284,901, 12/2019-11/2022)
- co-PI, NSF DUE, (PI: Edwin Ladd, co-PIs: Abe Feuerstein, Lara Dick), *Improving Pathways for STEM Teacher Certification* (\$74,646, 4/2020-3/2021).
- PI, ACS PRF, *Experimental Analysis of Grain-Scale Suspension Clogging through Millifluidic Obstacle Arrays* (\$70,000, 3/2020-8/2023).
- PI, NSF CBET, *Flow and Rheology of Particle-Fluid Suspensions with Variable Hydrophobicity* (\$135,103, 7/2011–6/2017).
- co-PI, Office of Naval Research (PI: Giovanna Scarel), *The exploitation of electric contributions in infrared power generation* (\$105,111, 3/10/2015–10/31/2017).
- co-PI, NSF Noyce Capacity Building (PI: Eric Pyle, co-PIs: John Almarode, Kerry Cresawn, Barbara Reisner), *James Madison University EPIC (Expanding Pathways, Identity and Capacity) Science Education*, (\$299,744, 10/1/14–9/30/16).
- co-PI, Office of Naval Research (PI: Giovanna Scarel), *Infrared power generation: study in an insulated compartment* (\$30,000, 8/1/2014–8/31/2015)

- PI, VA DOE Math Science Partnership Grant (co-PIs: Joseph Mahler and David Slykhuis), *Enhancing Student Achievement Across Virginia Through Modeling Instruction*, (\$235,819, 4/2014–9/2015)
- PI, PhysTEC, Physics Teacher Education Coalition (co-PIs: Scott Paulson, David Daniel, David Slykhuis, Andy Jackson, and Mark Mattson), *Proposal for a PhysTEC Comprehensive Site at James Madison University*, (\$297,012 8/2013–7/2016)
- PI, NSF MRI (co-PIs: Kevin Caran, Klebert Feitosa, and Kyle Gipson), *Acquisition of a Rheometer for Undergraduate Materials Research* (\$185,500, 8/2012–7/2015)
- PI, Research Corporation, *Effect of Imposed Force Fluctuations on the Jamming Transition in Granular Materials* (\$44,918, 7/2007–6/2011)
- PI, National Institute of Standards and Technology, *Summer Undergraduate Research Fellowship* (\$7034, 5/2007–9/2007)
- PI, JMU Summer Faculty Assistance Grant, *Study of the force response of granular materials under imposed vibrations* (\$4,000, 6/2006–8/2006)

SELECTED PRESENTATIONS (SINCE 2001) Jamming, vibration, and confinement in dense granular flow, talk presented at Disordered Colloids, Nanoparticles, Atoms, and Particulates Seminar, University of Pennsylvania (2018) (**invited**).

Clogging of suspensions in bidirectional flow and through obstacle arrays, talk presented at American Physical Society Division of Fluid Dynamics Meeting (2018).

Jamming, jetting, and flow: Complexity in the flow of granular-fluid systems, Haverford College physics colloquium (2018) **(invited)**.

Impact and interaction of granular streams in water, talk presented at American Physical Society March Meeting (2017).

Clogging transition in counter-flowing suspensions, poster presented at Granular Matter Gordon Conference (2016).

Impact of a hydrophobic granular stream in water, talk presented at American Physical Society March Meeting (2016).

Avalanching and flow of granular and granular-fluid mixtures, talk presented at
– Providence College (2015) **(invited)**.
– Bucknell University (2015) **(invited)**.
– American Physical Society March Meeting (2015).
– 14th Mid-Atlantic Soft Matter Meeting (soundbite) (2015).
– Virginia Soft Matter Workshop (2014) **(invited)**.

Enhancing Student Achievement Across Virginia Through Modeling Instruction
– talk presented at National Science Teacher Association regional conference (2014).
– talk presented at Virginia Academy of Science Teachers Professional Development Institute (2014).

Rheology and flow of hydrophobic granular mixtures, talk presented at
– American Physical Society Division of Fluid Dynamics Meeting (2013)
– Granular Day Research Symposium, Göttingen, Germany (2013) **(invited)**.

Electrotaxis in Dictyostelium
– Dicty Retreat (2012)
– Hahnenklee Meeting on Self-Organization in Biology (2013)
– Patterns in Biophysics Research Seminar (2013)

Flow and Rheology of Hydrophobic Granular-Fluid Mixtures, poster presented at Gordon Conference on Granular and Granular-Fluid Flow (2012)

Imaging and Rheology of Complex Granular & Granular-Fluid Flows, talk presented at Science Enabled by Photon Sources (2012).

Jamming and Fluidization in Granular Flows
– Rochester Institute of Technology (2012) **(invited)**.
– SESAPS (Southeastern Section of the American Physical Society) (2011) **(invited)**.
– Max Planck Institute for Dynamics and Self-Organization (Göttingen, GER) (2011) **(invited)**.
– James Madison University, Department of Mathematics and Statistics (2011) **(invited)**.

Surface Chemistry Effects in Submerged Granular Flows of Hydrophobic Grains, talk presented at American Physical Society Division of Fluid Dynamics Meeting (2011).

Shear strength of vibrated granular/granular-fluid mixtures, talk presented at American Physical Society March Meeting (2011).

Jamming in Vibrated Granular and Granular-Fluid Systems, poster presented at
— Gordon Conference on Granular and Granular-Fluid Flow (2010)
— Complex Driven Systems – From Statistical Physics to the Life Sciences (2010)
— Dynamics Days (2011)

Jamming in Vibrated Granular Systems, talk presented at American Physical Society March Meeting (2009) **(invited)**.

Multiscale motion in the shear band of granular Couette flow, talk presented at Powders and Grains 2009.

Jamming in Granular Systems, (2009).
— Davidson College **(invited)**
— Naval Research Lab **(invited)**
— JMU Physics Colloquium
— SESAPS 2008 (Southeastern Section of the American Physical Society) **(invited)**

Jamming in Granular Systems with Imposed Vibrations, poster presented at Gordon Conference on Granular and Granular-Fluid Flow (2008).

2D Granular Avalanches with Imposed Vibrations, talk presented at APS March Meeting (2008).

Granular Shear Flow with Imposed Vibrations, poster presented at Gordon Conference on Granular and Granular-Fluid Flow (2006).

Granular Shear Flow with Imposed Vibrations, talk presented at APS March Meeting (2006).

Diffusion, Elastic Energy, and Force Measurements in Sheared Granular Materials, talk presented at Dynamics Days (2004).

Granular Physics: Scientist in a Sandbox, (2004).
— James Madison University
— Emory University
— Washington and Lee College
— Kalamazoo College
— DePauw University
— Austin College

Elastic Energy and Force Measurements in Sheared Granular Materials, talk presented at the APS Division of Fluid Dynamics Meeting (2003).

Diffusion and Elastic Energy Measurements in Sheared Granular Materials, talk presented at the Canadian, American, and Mexican (CAM) First Graduate Student Conference (2003).

Diffusion and Elastic Energy Measurements in Dense Granular Shear Flows, talk presented at the Newton Institute Flow Regimes, Transitions, and Segregation in Granular and Particle-Laden Flows (2003).

Diffusion and Elastic Energy Measurements in Dense Granular Matter, talk presented at the APS March Meeting (2003).

Shearing of Granular Materials: Probing a New State of Matter, colloquium, Swarthmore College (2002).

Shearing in Dense Granular Matter, talk presented at the APS Division of Fluid Dynamics Meeting (2002).

Shearing in Dense Granular Matter, poster presented at Gordon Conference on Granular and Granular Fluid Flow (2002).

Low Anisotropy Growth in Directional Solidification, poster presented at Dynamics Days (2002).

Dynamics of “Seaweed” Growth in Directional Solidification, invited talk at Thin Films Seminar, Duke University (2001).

Granular Physics, talk presented at ADVANCE Seminar for Women in Science, Duke University (2001). **(invited)**

Tip Splitting and Seaweed Growth in Directional Solidification, talk presented at the American Physical Society March Meeting (2001).

Tip Splitting and Seaweed Growth in Directional Solidification, (2001).

- Duke University
- University of Chicago
- Georgetown University
- Gettysburg College
- Washington and Mary University

STUDENT Undergraduate co-authors in *italics**.

PRESENTATIONS (SELECTED) Optimization of a Universal Granular Gripper Using Geometrical Inserts, Eddie Davis*, Brian Utter, Kaixiang Shi*, Ryder Winans*, Charles Kim, poster presented at the APS March Meeting (2017).

- Plate Tracking for a Granular Casimir Effect, George Wilkes* & Brian Utter,
- poster presented at APS March Meeting (2015)
 - poster presented at NCUR (National Conference on Undergraduate Research) (2015)
 - talk presented at 2nd Virginia Soft Matter Workshop (2014)

Effective Interactions Between Intruders in Vibrated Granular Materials, Rachel Derby* & Brian Utter

- poster presented at American Physical Society Division of Fluid Dynamics Meeting (2011).
- poster presented at CUR Posters on the Hill (Washington DC) (2011).

Characterizing the motion of grains in a 2D rotating drum with imposed vibrations, Nora Swisher* & Brian Utter

— talk presented at Southeastern Conference of Undergraduate Women in Physics (Knoxville, TN) (2011).

— poster presented at American Physical Society March Meeting (2011).

Rheology of Partially Submerged Hydrophobic Sands, Elizabeth Visosky* & Brian Utter, poster presented at Southeastern Conference of Undergraduate Women in Physics (Knoxville, TN) (2011).

Flow of Monodisperse and Bidisperse Circular Grains, Christina Hanks* & Brian Utter, Southeastern Conference of Undergraduate Women in Physics (Knoxville, TN) (2011).

Submerged granular flow of hydrophobic and hydrophilic sand, Ben Foltz* & Brian Utter, poster presented at American Physical Society March Meeting (2011).

Particle trajectories in 2D granular avalanches with imposed vibrations, Nora Swisher* & Brian Utter, poster presented at American Physical Society March Meeting (2011).

Behavior of granular slopes under vertical vibration, Nora Swisher* & Brian Utter, talk presented at Southeastern Women in Physics Conference (2010).

Shear Stresses in a water/sand system partially fluidized by low-intensity vertical vibration, Ralph Herman* & Brian Utter

— talk presented at NCUR (National Conference on Undergraduate Research) (2009).

Granular Avalanches in a Rotating Drum with Imposed Vibrations, Dan Amon* & Brian Utter, talk presented at NCUR (National Conference on Undergraduate Research) (2008).

Imposed Vibration in Sheared Granular Systems, Eric Hoppmann* & Brian Utter, talk presented at NCUR (National Conference on Undergraduate Research) (2007).

Granular Shear Flow with Imposed Vibrations, Eric Hoppmann* & Brian Utter, poster presented at American Physical Society March Meeting (2006).
